# Mounting system for tiled roofs

■ Roof hooks - classic - medium load - heavy duty

Article no.

Classic: **201.9521-0-150x60XX**

Medium load: **201.9521-1-180x80XX**

Heavy duty: **201.9523-1-180x80XX**

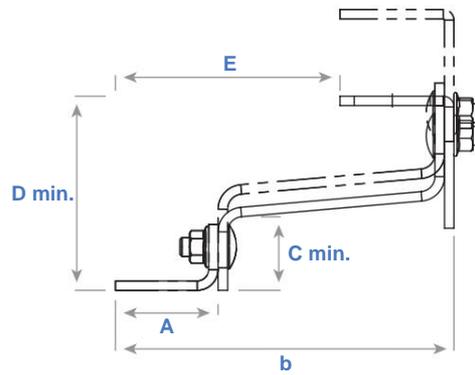

A	b	C	D	E		
base plate in mm	overall length in mm	Temple height in mm	Total height in mm	Supplementary measure in mm	hanger in mm	hanger stainless steel
150x60x4	175	45	130	110	30x5	1.4016 <b>Classic</b>
180x80x4	204	35, 40, 45	131.5	18	35x6	1.4301 <b>medium load</b>
180x80x5	204	40, 45	131.5	18	35x8	1.4301 <b>heavy duty</b>

**Base plate:** stainless steel 1.4016

The roof hook is screwed with at least two 8 mm washer head screws.  
The mounting rail is connected using a hex screw M10 or M10 hammer head screw and a flange nut with M10 locking teeth.

## Roof hook - 3-way adjustable

Article no.  
**201.9525-0-140X56#T**

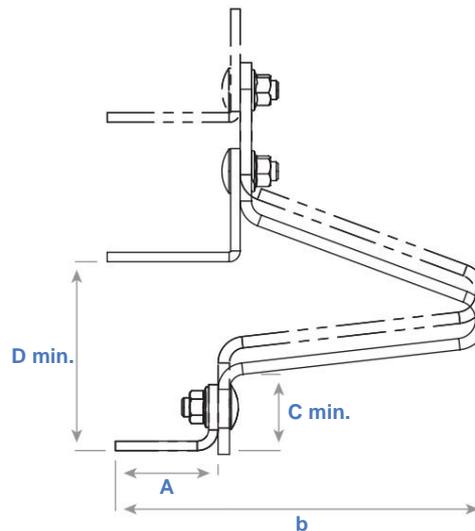

A	b	C	D	E	
base plate in mm	overall length in mm	Temple height in mm min - max	Total height in mm	Supplementary measure in mm	hanger in mm
140x56x5	169	38.5 - 51.5	124.5 - 148	114	30x5

**Material variant 1:** Base plate: stainless steel 1.4016 bracket: stainless steel 1.4301

**Material variant 2:** Base plate: stainless steel 1.4016 bracket: stainless steel 1.4016

The roof hook is screwed with at least two 8 mm washer head screws.  
The mounting rail is connected using a hex screw M10 or M10 hammer head screw and a flange nut with M10 locking teeth.

## Roof hook 3-way adjustable - Stabilo

Article  
no. **201.9525-5-140x56#T**

A	b	C	D	
base plate in mm	overall length in mm	Temple height in mm min - max	Total height in mm min - max	hanger in mm
140x55x5	196.5	40 - 53	105 - 170	70x35

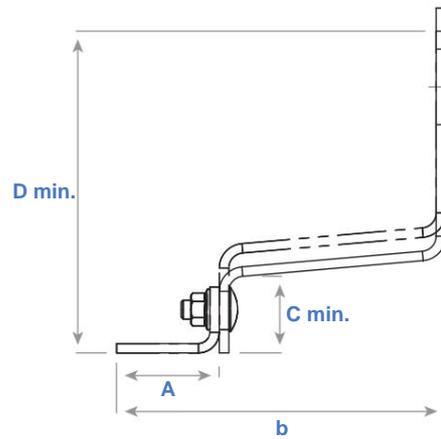

**Material:** Base plate: stainless steel 1.4016 Bracket: stainless steel 1.4301

The roof hook is screwed with at least two 8 mm washer head screws.  
The mounting rail is connected using a hex screw M10 or M10 hammer head screw and a flange nut with M10 locking teeth.

<b>Material variant short &amp; long:</b> stainless steel 1.4301					
<b>Elongated hole dimensions, connection to the module rail:</b> 40 x 11mm					

The roof hook is screwed with at least two 8 mm washer head screws.  
The mounting rail is connected using a hex screw M10 or M10 hammer head screw and a flange nut with M10 locking teeth.

## Roof hook - plain tail - double cover

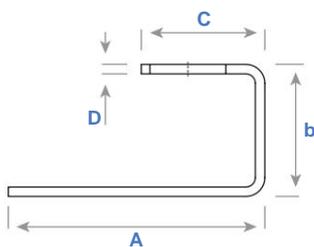

Article no.

**201.9521-BIBERDD#T**

A	b	C	D	E	
base plate in mm	overall length in mm	Temple height in mm	Total height in mm	Supplementary measure in mm	
150x50x2	308	35	105.6	247.5	
<b>Material variant short &amp; long:</b> stainless steel 1.4301					
<b>3 connection points for the horizontal rail:</b> 29.5 x 10.5 mm slot					

The roof hook is screwed with at least two 8 mm washer head screws.  
The mounting rail is connected using a hex screw M10 or M10 hammer head screw and a flange nut with M10 locking teeth.

## Roof hook - shingle

Article no.

**201.9521 shingle**

A	b	C	D
base plate / overall length in mm	Total height / Temple height in mm	Hook in mm	Material thickness in mm

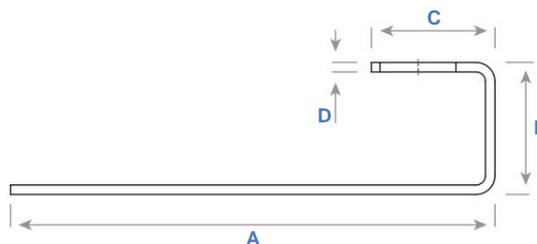

135x30	70	65x30	5
--------	----	-------	---

**Material:** stainless steel 1.4016

**Elongated hole dimensions, connection to the module rail:** 40 x 11mm

The roof hook is screwed with at least two 6 mm wood screws.  
The mounting rail is connected using a hex screw M10 or M10 hammer head screw and a flange nut with M10 locking teeth.

## Roof hook - slate

Article no.

**201.9521-SCH.30x5**

A	b	C	D
base plate / overall length in mm	Total height / Temple height in mm	Hook in mm	Material thickness in mm

255x30	70	65x30	5
--------	----	-------	---

**Material:** stainless steel 1.4016

**Elongated hole dimensions, connection to the module rail:** 40 x 11mm

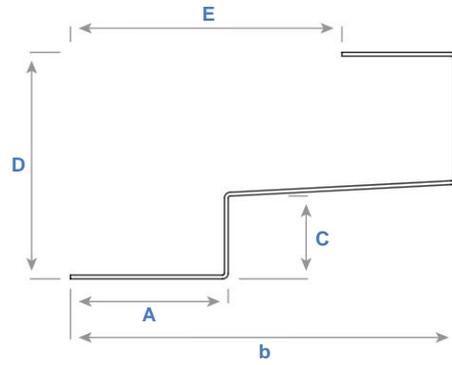

The roof hook is screwed on with three 6 mm countersunk screws.  
The mounting rail is connected with a hex screw M10 or M10 hammer head screw and a flange nut with M10 locking teeth.

## Roof hook - Tegalit

Article no.

**201.9521-2-TEGA-N3#T**

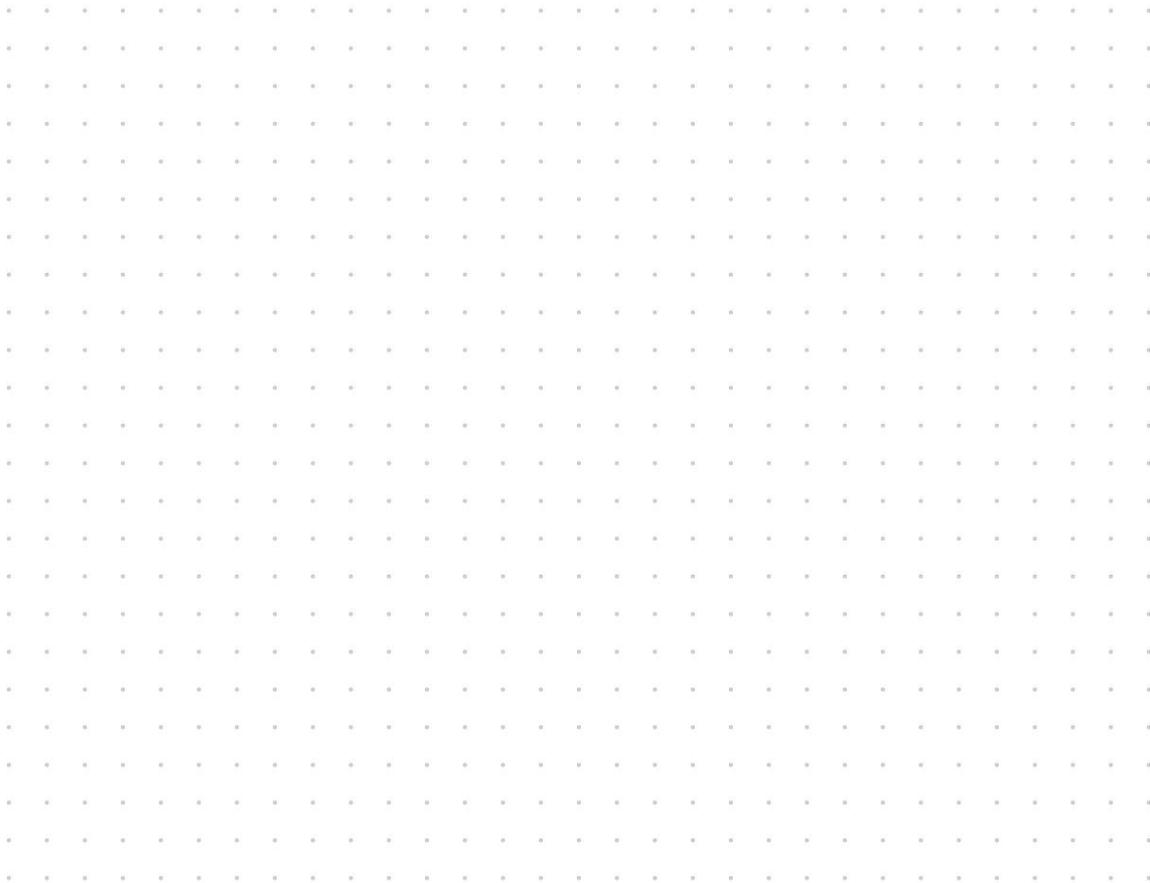

A	b	C	D	E
base plate in mm	overall length in mm	Temple height in mm	Total height in mm	Supplementary measure in mm
150x83x2	203.3	44	120.1	142.8

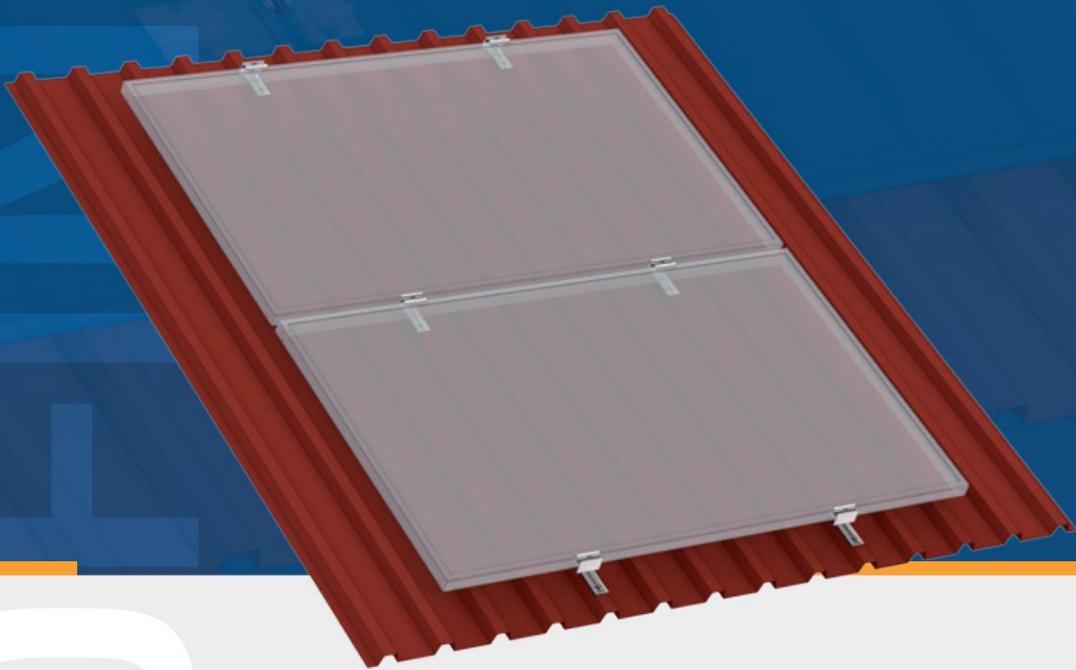

**Material variant:** stainless steel 1.4301

**3 connection points for the horizontal rail:** 29.5 x 11 mm slot

The roof hook is screwed with at least two 8 mm washer head screws.  
The mounting rail is connected using a hex screw M10 or M10 hammer head screw and a flange nut with M10 locking teeth.

# Mounting system for Sheet metal & Corrugated roofs

## Trapezoid mounting rail high

Article no.

**201.131.400-BK-GL**

**Dimensions** width x height:  
90x60mm

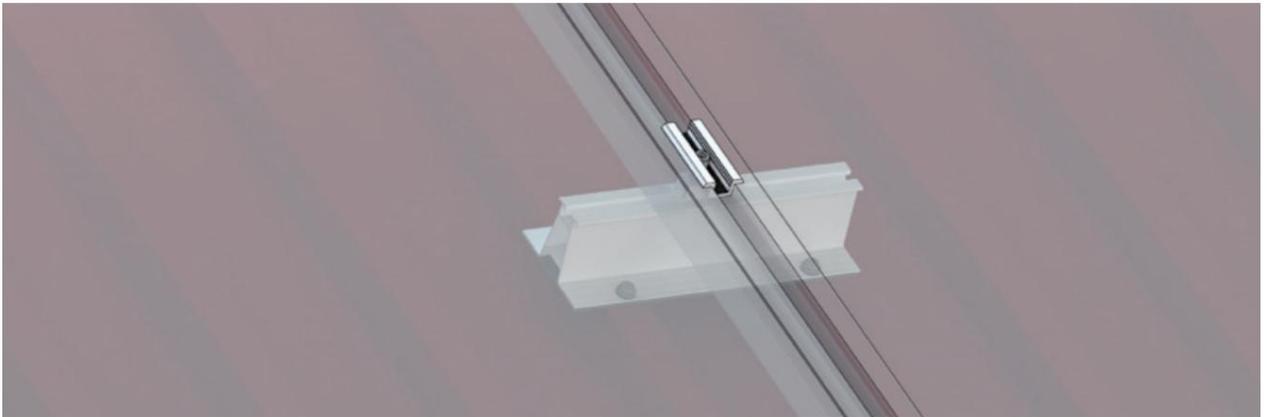

Connection at the top: M8 slot nut or KlickFix

For direct screwing to trapezoidal sheets, punched mounting holes, covered with EPDM tape on the back.

Trapezoidal rail also available without EPDM tape with continuous adhesive on the back.  
101.131.Length-B

page 37

## Trapezoid mounting rail half high

Article no.

**201.031-25.400-BK-GL**

**Dimensions** width x height:  
90x25mm

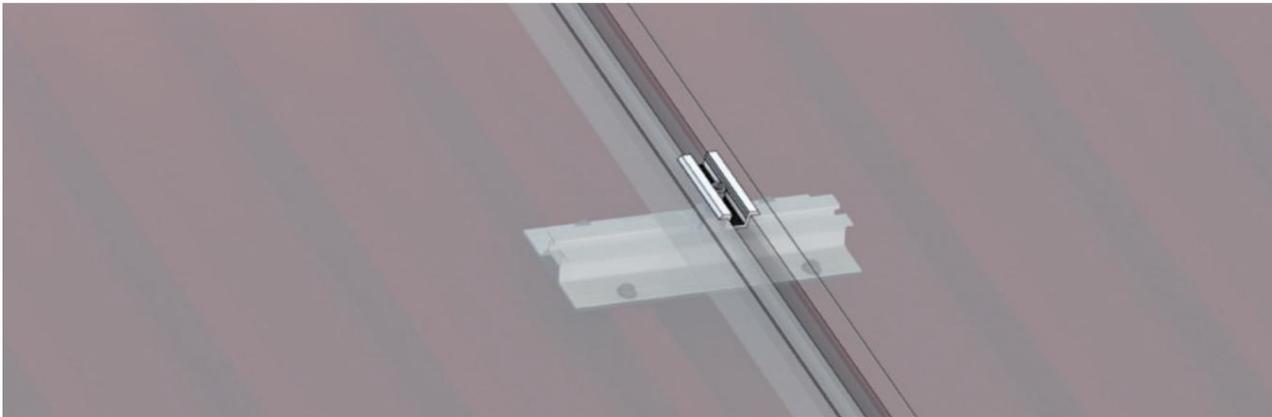

Connection at the top: M8 slot nut or KlickFix

For direct screwing to trapezoidal sheets, punched mounting holes, covered with EPDM tape on the back.

Trapezoidal rail also available without EPDM tape, fully glued on the back.  
101.031-25.Length-B

page 37

## Flat trapezoid mounting rail

Article no.

**201.031.400-BK-GL**

**Dimensions** width x height:  
90x13mm

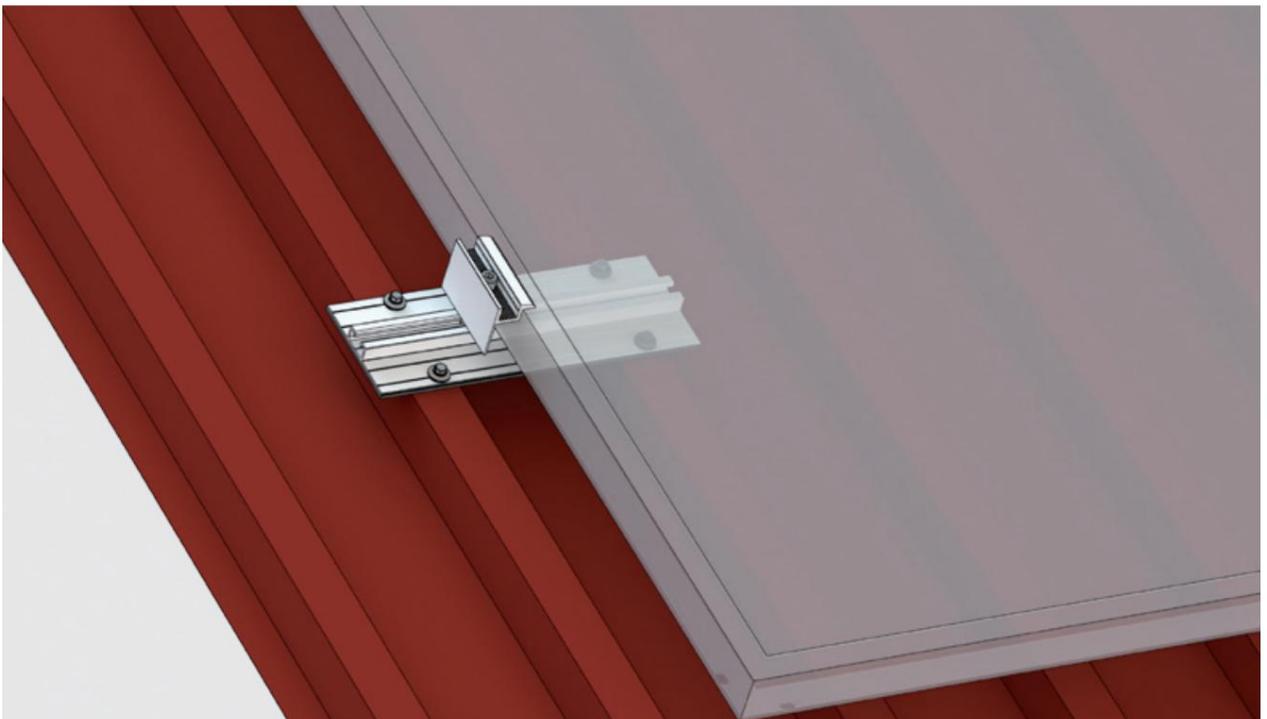

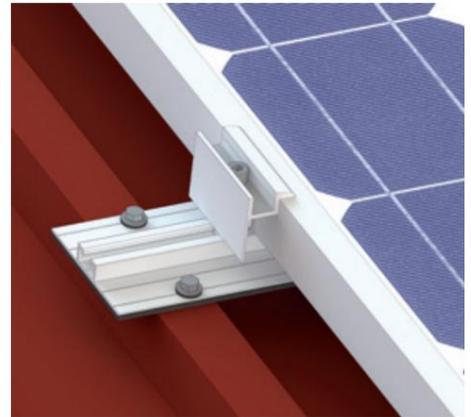

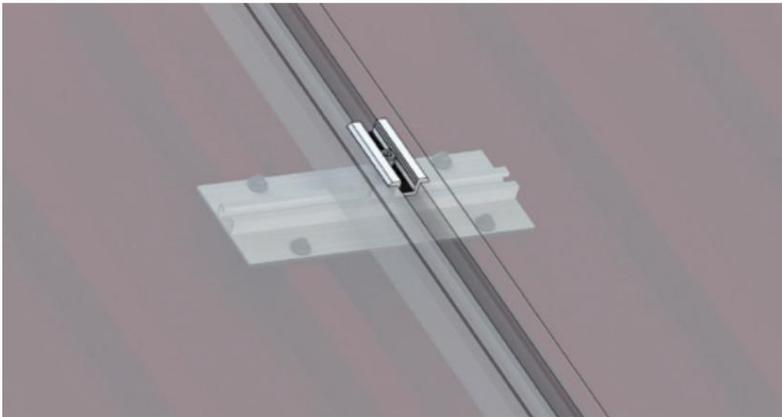

Connection at the top: M8 slot nut or KlickFix

Punched fastening holes, with EPDM tape and perforated for direct screwing to trapezoidal sheets.

Trapezoidal rail also available without EPDM tape with continuous adhesive on the back.  
101.031.Length-B

page 37

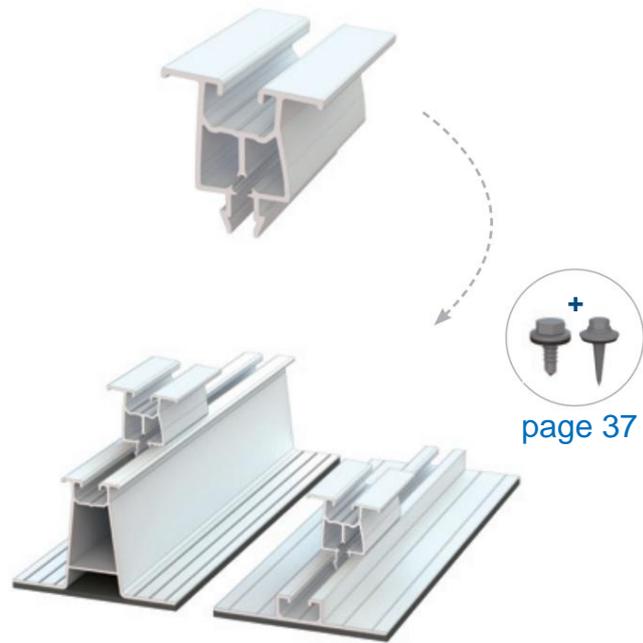

## Angle increase trapezoid

Article no.

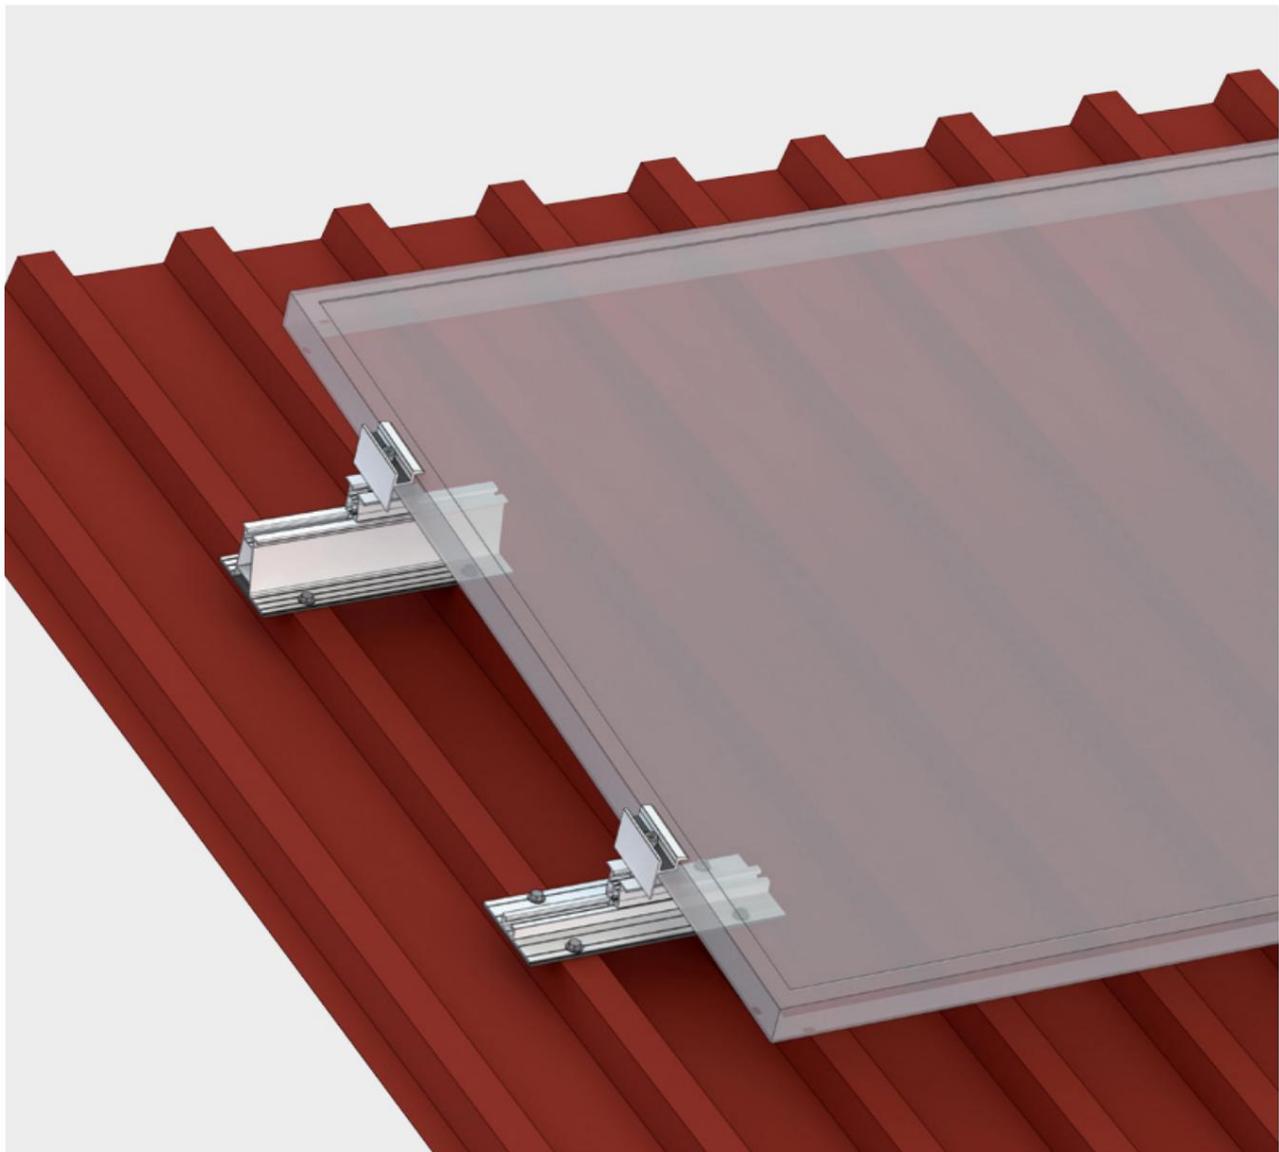

**201.331-WE5-0.06**

**Dimensions** length x height (installed):  
60mm x 30mm

Lateral fixation with sheet metal screw 5.5x55.  
The angle increaser is clicked into the rail and fixed laterally with the sheet metal screw to create an increase with a 5 degree inclination for the system.

page 37

■ High beading  
Click top

Article no.  
**201.742.70-B**

Dimensions length: 70 mm  
height: 40mm

To click into the lower part: 201.743.120-B-BK.  
For connecting transverse modules, for clamping on the long side of the frame.

■ High beading  
Short rail bottom part

Article no.  
**201.743.120-B-BK**

Dimensions length: 120 mm

Punched and covered with EPDM.  
Short rail bottom part for direct screwing to trapezoidal sheet metal.

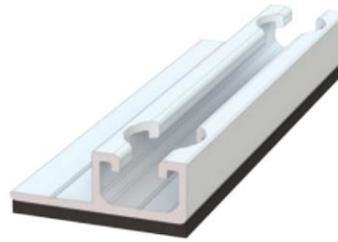

## Trapezoidal rail high beadE

Article no.

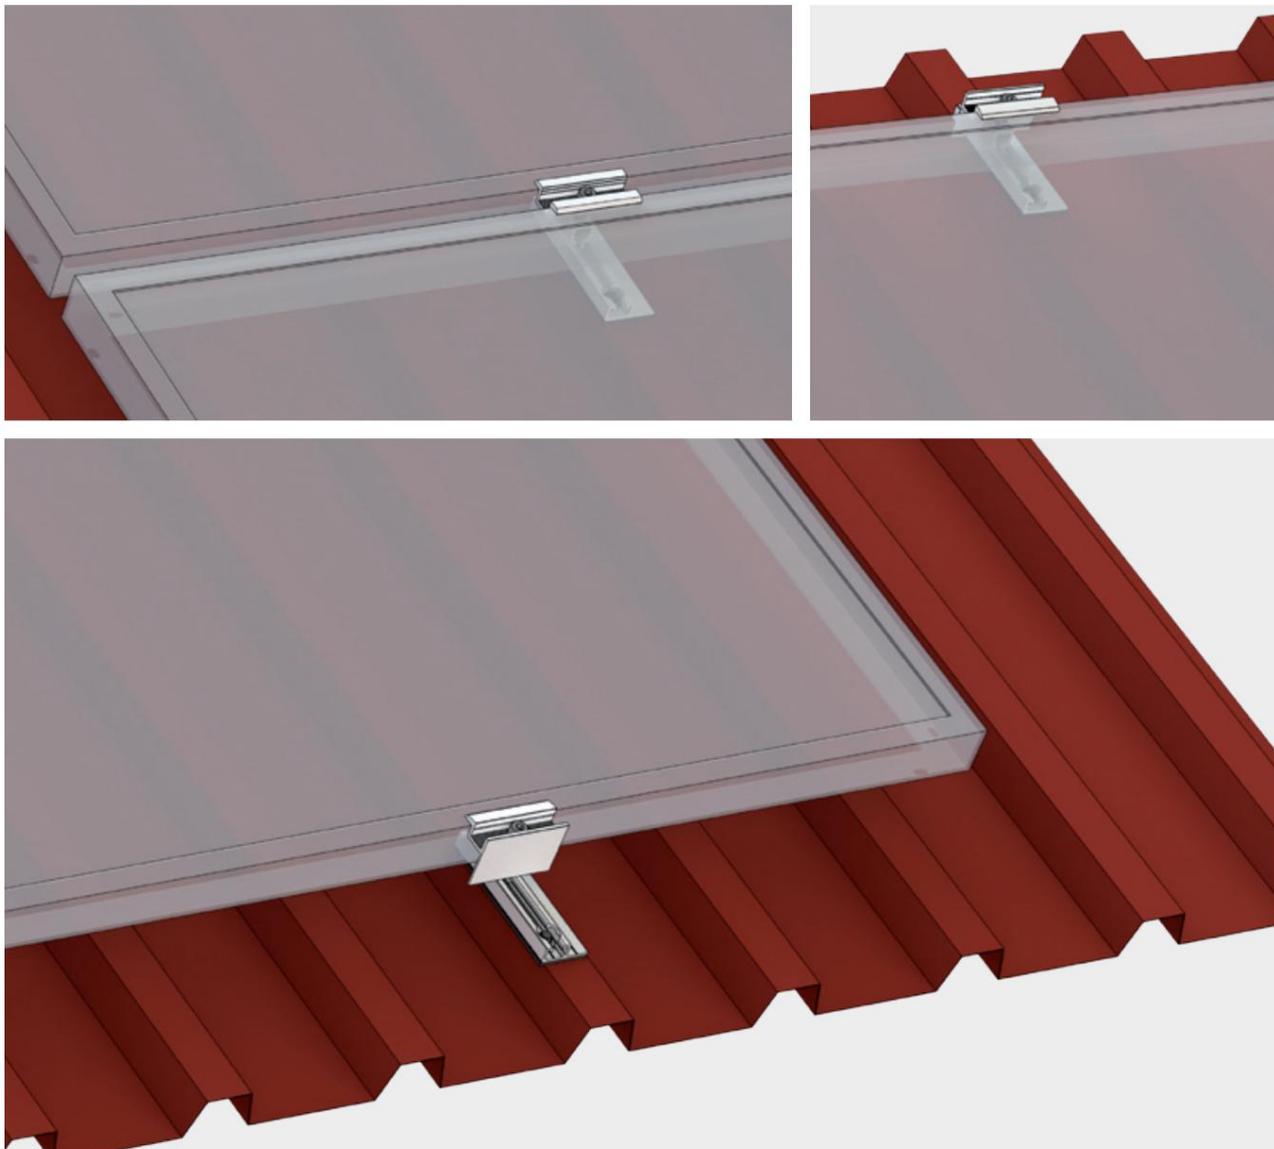

**201.231.XXX-BK-GL**

<b>Dimensions</b>	length: 90 mm
	length: 120mm
	length: 200mm
	height: 14mm

Punched and covered with EPDM.  
Short rail for direct screwing to trapezoidal  
sheet metal.

page 37

■ Standing seam clamp

Article no.

**201.9583-Seam clamp1**

**Dimensions**

Up to a maximum of 3.5 mm fold width

Roof seam clamp stainless steel with hole for M10 rail connection, assembled with: Screw, nut, washer

■ Round seam clamp

Article no.

**201.9583-Rundfalz10**

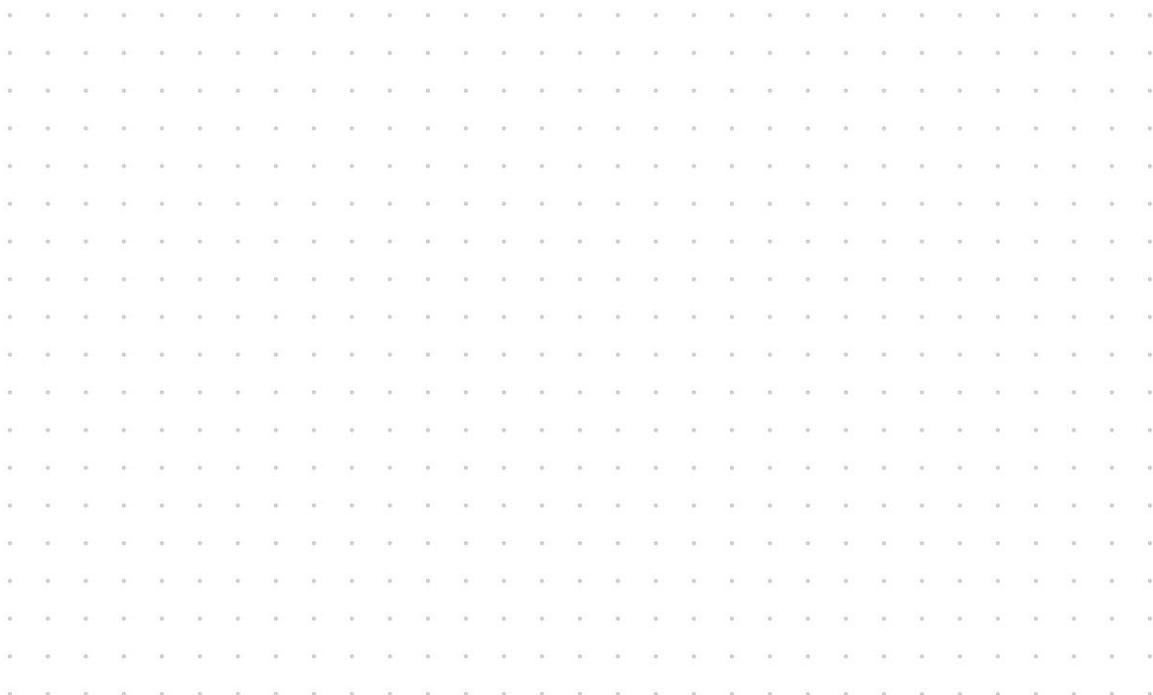

**Dimensions**

Up to a maximum of 10.5 mm fold width

Roof seam clamp stainless steel with hole for M10 rail connection, assembled with: Screw, nut, washer

We can offer you other diverse solutions for your seam roof.

Please feel free to contact us.

■ hanger bolt  
for timber

Article  
no. 301.9216-2-.....

Dimensions Available from 10x180  
to 12x400

Pre-assembled with 3 x M10 locking nuts and  
1 x EPDM seal.

■ Solar fastener  
for steel

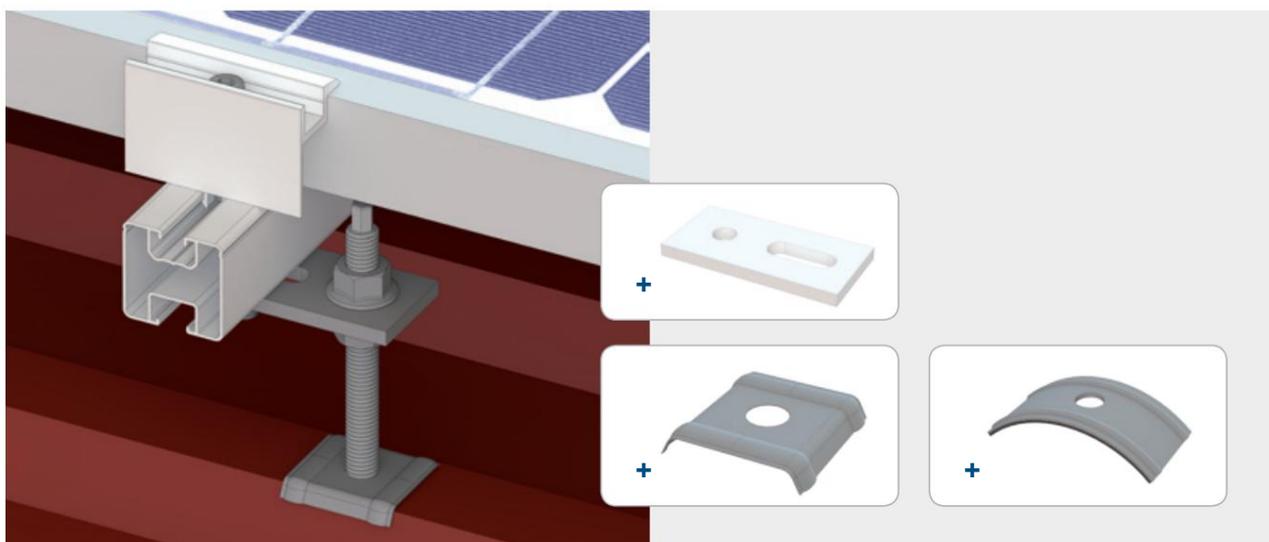

Article  
no. 301.9222-2-.....

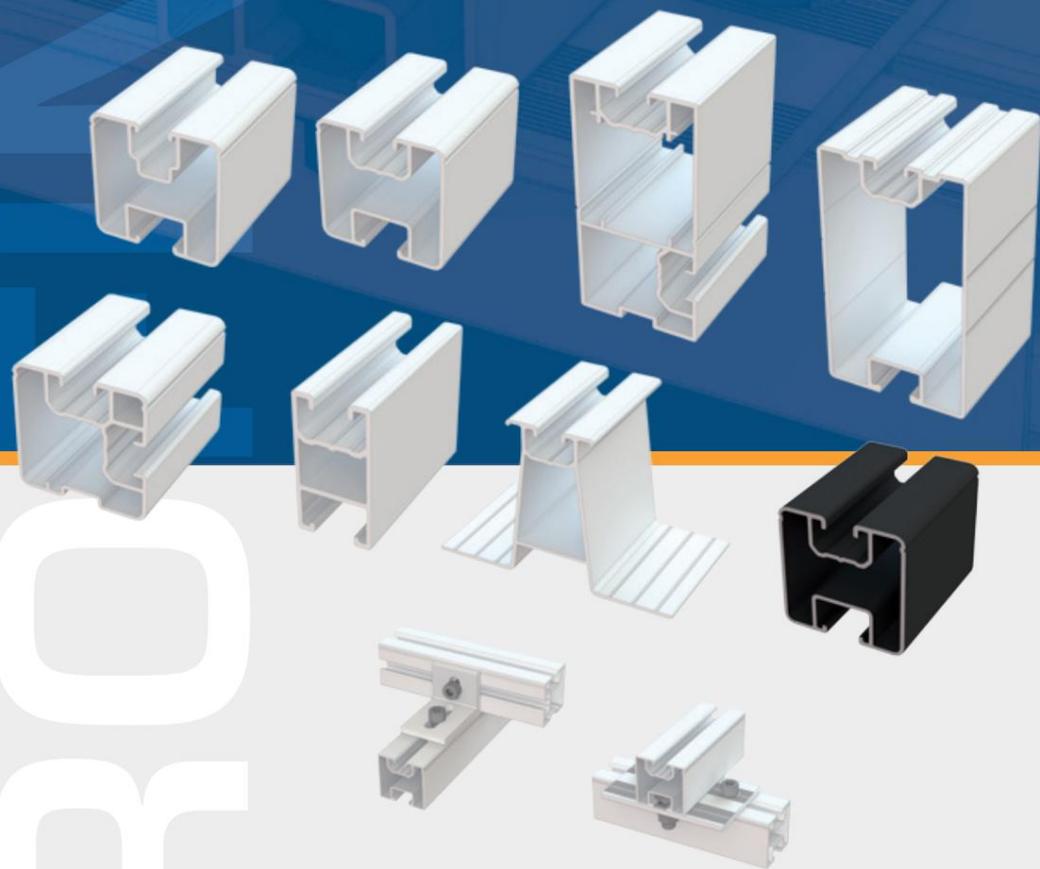

Dimensions various  
Dimensions

Hanger bolt for steel UK, with special coating,  
assembled with nuts, washers and mushroom  
seal, building authority approval.

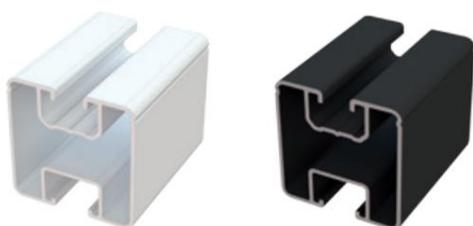

Also available with dome.

# Mounting rails and accessories

■ Mounting rail  
PR1-UL

Article no.  
**101.201.Length-B**

Dimensions 40 x 40 mm  
Wingspan: up to 2.76 m\*

Connection at the top: M8 slot nut or KlickFix  
Connection below: DIN 933 M10 or  
Profinal hammer head screw  
Also available black anodized.

■ Mounting rail  
PR1

Article no.  
**101.001.Length-B**

Dimensions 40 x 40 mm  
Wingspan: up to 3.03 m\*

Connection at the top: M8 slot nut or KlickFix  
Connection below: DIN 933 M10 or  
Profinal hammer head screw

■ Mounting rail  
PR1-HB

Article no.  
**101.301.Length-B**

Dimensions 20 x 40 mm  
Wingspan: up to 1.98 m\*

Connection at the top: M8 slot nut or KlickFix  
Connection below: DIN 933 M10 or  
Profinal hammer head screw

■ Mounting rail  
PR3-UL

Article no.  
**101.203.Length-B**

Dimensions 40 x 40 mm  
Wingspan: up to 2.74 m\*

Connection at the top: 4-point nut M8 or KlickFix  
Connection at the bottom: DIN 933 M10  
or Profinal hammer head screw

\* Load assumptions: snow load zone 1, terrain height up to 285 m, module load: 0.11 kN/m<sup>2</sup>, wind load zone 1, Terrain category 4 - flat terrain, roof pitch 55°

■ **Mounting rail  
PR15**

Article no.  
**101.015.Length-B**

**Dimensions** 40 x 40 mm  
Wingspan: up to 3.04 m\*

Connection at top/side: M8 slot nut or KlickFix

■ **Mounting rail  
PR15-UL**

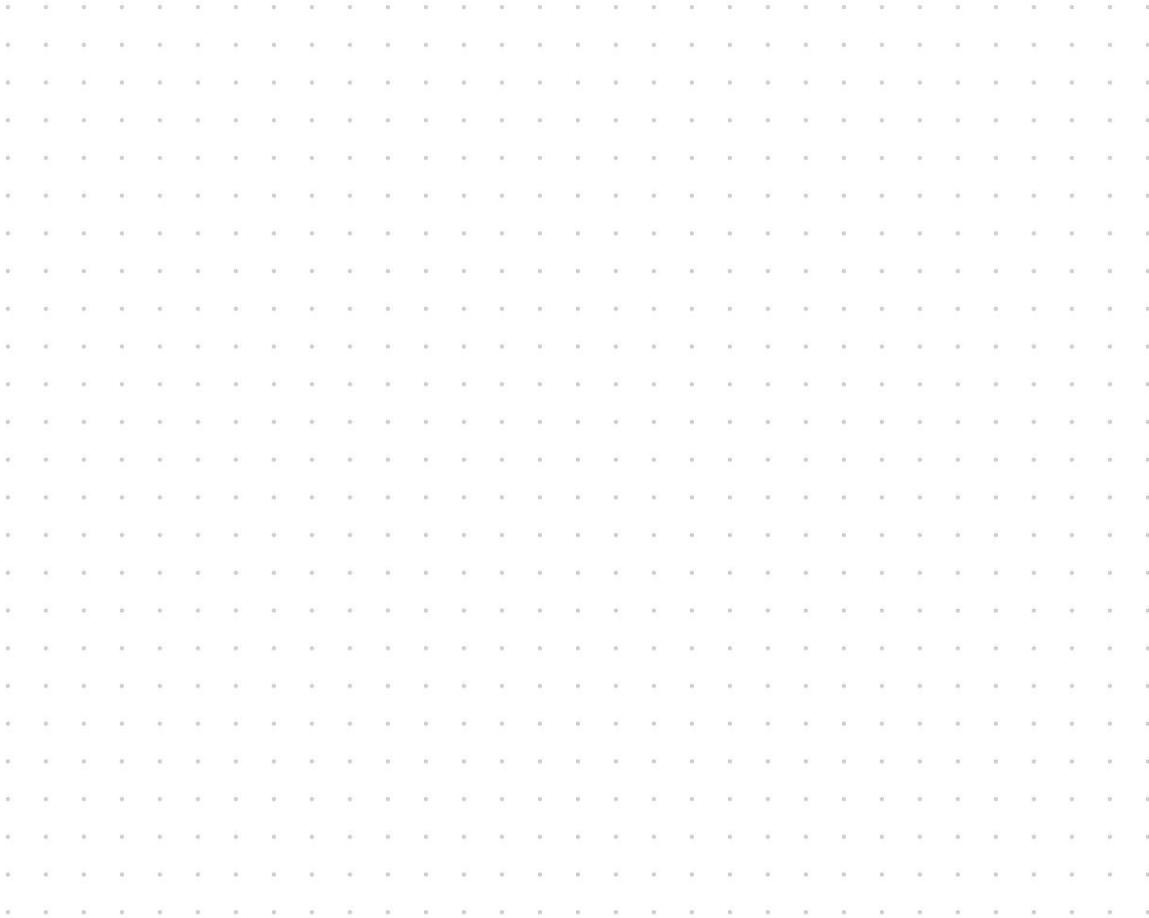

Article no.  
**101.215.Length-B**

**Dimensions** 40 x 40 mm  
Wingspan: up to 2.80 m\*

Connection at top/side: M8 slot nut or KlickFix

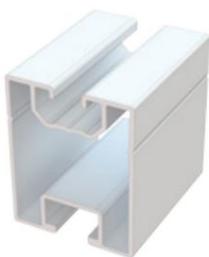

P3

PROFINAL

\* Load assumptions: snow load zone 1, terrain height up to 285 m, module load: 0.11 kN/m<sup>2</sup>, wind load zone 1, Terrain category 4 - flat terrain, roof pitch 55°

Article no.  
**101.005.Length-B**

**Dimensions** 50 x 40 mm  
Wingspan: up to 3.55 m\*

Connection at the top: M8 slot nut or KlickFix  
Connection below: DIN 933 M10 or  
Profinal hammer head screw

### ■ Mounting rail PR2

Article no.  
**101.002.Length-B**

**Dimensions** 80 x 40 mm  
Wingspan: up to 4.87 m\*

Connection at the top: M8 slot nut or KlickFix  
Connection below: DIN 933 M10 or  
Profinal hammer head screw

### ■ Mounting rail PR16

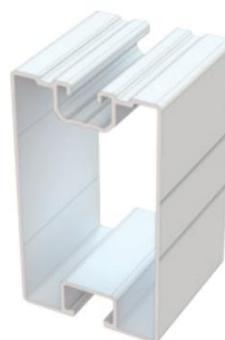

Article no.  
**101.016.Length-B**

**Dimensions** 80 x 40 mm  
Wingspan: up to 4.90 m\*

Connection at the top/side: M8 slot nut or KlickFix

### ■ Mounting rail PR85/50

Article no.  
**101.255.Length-B**

**Dimensions** 85 x 50 mm  
Wingspan: up to 5.38 m\*

Connection at the top: M8 slot nut or KlickFix  
Connection below: DIN 933 M10 or  
Profinal hammer head screw

\* Load assumptions: snow load zone 1, terrain height up to 285 m, module load: 0.11 kN/m<sup>2</sup>, wind load zone 1,  
Terrain category 4 - flat terrain, roof pitch 55°

**Mounting rail  
Light1**

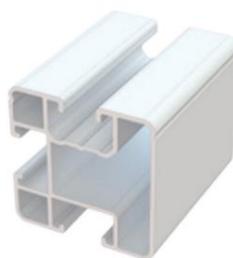

Article no.  
**101.101.Length-B**

**Dimensions** 50 x 39 mm  
Wingspan: up to 2.84 m\*

Connection at the top: M8 slot nut or KlickFix  
Connection below: DIN 933 M10 or  
Profinal hammer head screw

**Mounting rail  
PR15-O-HKS**

# System accessories

## ■ U-connector for 40 x 40

Article no.

**201.012.200-B**

Dimensions length: 200 mm

For mounting rails 40/40 for external fixation, drilling screws DIN 7504 e.g. 5.5x25 mm or 4.8x19 mm are required for fastening.  
1 connector per connection point.

## ■ Slide-in connector for 40 x 40

Article no.

**201.218.200-B**

Dimensions length: 200 mm

For mounting rails 40/40 for internal fixation, drilling screws 301.91912-2-5.5X38 are required for fastening.  
2 connectors per connection point.

## ■ Slide-in connector for PR5 and Light1

Article no.

**201.118.200-B**

Dimensions length: 200 mm

For internal fixation.  
Drilling screws DIN 7504 e.g. 5.5x25mm or 4.8x19mm required for fastening.  
2 connectors per connection point

# Profile system

## ■ Slide-in connector for PR-Flex

Article no.

**201.318.150-B**

**Dimensions** length: 150 mm

For PR-Flex splints for internal fixation  
Drilling screws DIN 7504 4.8x19mm  
required for fastening.  
1 connector per connection point

## ■ Slide-in connector for 80 x 40

Article no.

**201.418.200-B**

**Dimensions** length: 200 mm

For mounting rails 80/40 for internal fixation,  
drilling screws 301.91912-2-5.5X38 are  
required for fastening.  
1 connector per connection point.

## ■ Slide-in connector for 85 x 50

Article no.

**201.618.200-B**

**Dimensions** length: 200 mm

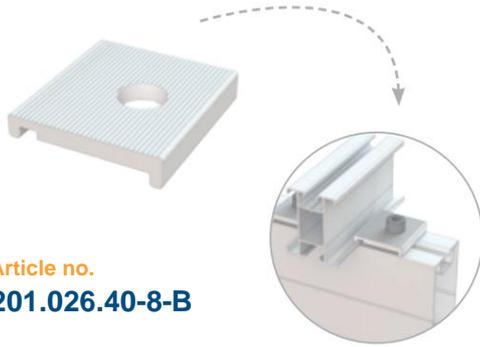

For mounting rails 85/50 for internal fixation  
Drilling screws DIN 7504 e.g. 5.5x25 mm or  
4.8x19 mm required for fastening.  
1 connector per connection point.

P3

PROFINAL

■ **Mounting plate**

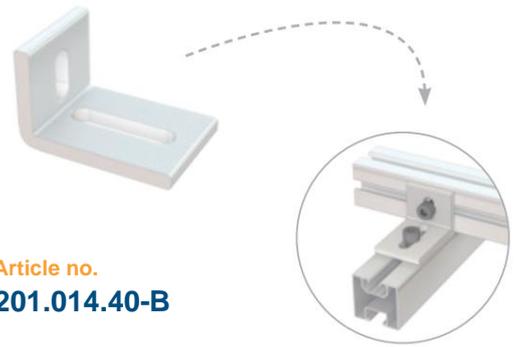

**Article no.**  
**201.026.40-8-B**

**Dimensions** 40mm x 35mm

To establish a rail cross association  
Available with hole for M8 and hole for M10

■ **Cross connection angle**

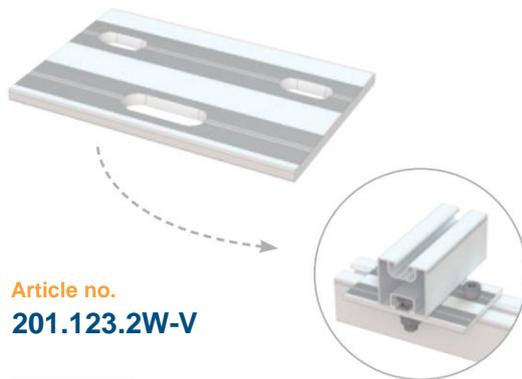

**Article no.**  
**201.014.40-B**

**Dimensions** 58 x 38mm  
length: 40mm

To establish a rail cross association.  
M8x16 screws and M8 slot nuts  
are required.

■ **Cross connection plate**

**Article no.**  
**201.123.2W-V**

**Dimensions** 100mm x 70mm

To establish a rail cross association.  
The same rail with an M10 connection at the  
bottom can be used for both profile layers.  
2x slotted hole for M8; 1x slotted hole for M10

■ **Black end cap**

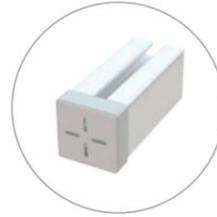

Article no.  
**201.051.40-S**

**Dimensions** 40 x 40 mm  
plastic

Suitable for 40x40 mounting rails.

■ **Gray end cap**

Article no.  
**201.051.40-B**

**Dimensions** 40 x 40 mm  
plastic

Suitable for 40x40 mounting rails.

## Module clamps

## Center clamp KlickFix

Article no.  
**201.9745-Mxx**

**Dimensions** clamp:  
70 mm length  
36mm width  
Module spacing: 20 mm

Pre-assembled module clamp for simple and practical "click" installation

Please pay attention to the module frame height:  
Version M1A: 28 - 31mm  
Version M1: 32-35mm  
Version M2: 36-45mm  
Version M3: 46-50mm

Each also available black anodized and black anodized with a bare edge.

## End clamp KlickFix

Article no.  
**201.9742-Exx**

**Dimensions** clamp:  
70 mm length  
36mm width  
Module spacing: 20 mm

Pre-assembled module clamp for simple and practical "click" installation

Please pay attention to the module frame height.  
There is an individual end clamp for each frame height.

Each also available black anodized and black anodized with a bare edge.

## UNIVERSAL KlickFix middle clamp

Article no.  
**201.9746-MKU**

**Dimensions** clamp:  
60 mm length,  
40 mm width  
Module spacing: 20 mm

Pre-assembled module clamp for simple and practical "click" installation

Universally applicable for module frame heights between 28 and 40 mm

Also available in black anodized with bare edge 201.9746-MKU-SE-BS

## UNIVERSAL KlickFix end clamp

Article no.  
**201.9743-EKU**

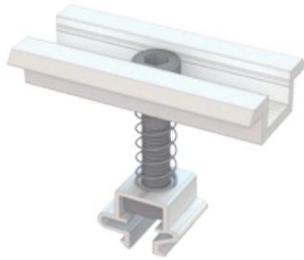

**Dimensions** clamp:  
60 mm length  
33mm width  
Module spacing: 20 mm

Pre-assembled module clamp for simple and practical "click" installation

Universally applicable for module frame heights between 28 and 40 mm

Also available in black anodized with bare edge 201.9743-EKU-SE-BS

■ **Center clamp**  
**DUPLEX**

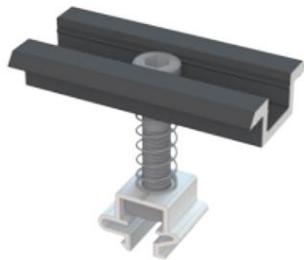

Article no.  
**201.913-frame height-B**

<b>Dimensions</b>	clamp:
	70mm length
	36mm width
	Module spacing: 20mm

Pre-assembled module clamp for simple and practical "click" installation

For module frame height:  
28 – 32mm  
33 – 40mm  
41 – 50mm

Each also available black anodized and black anodized with a bare edge.

■ **End clamp**  
**DUPLEX**

Article no.  
**201.904-frame height-B**

<b>Dimensions</b>	clamp:
	70 mm length
	36mm width

■ Center clamp  
for glass modules

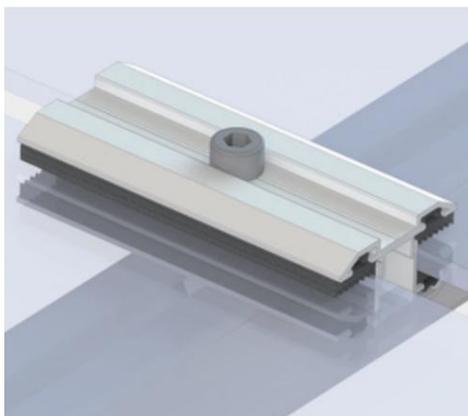

Article no.  
**201.9745-LAMINATE L80**

Dimensions clamp:  
80 mm length

Two-piece, including EPDM  
With approval for various module  
manufacturers, including First Solar

There is also an M8x35 screw  
+ Lock washer required

■ End clamp  
for glass modules

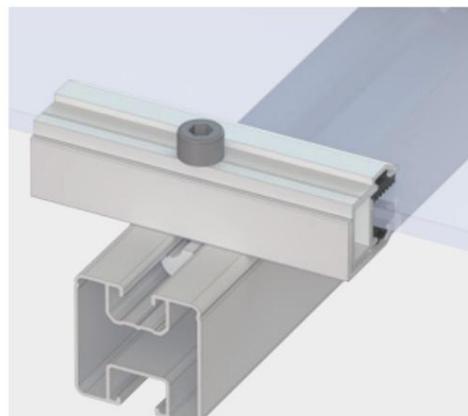

Article no.  
**201.9742-LAMINATE L80**

Dimensions clamp:  
80 mm length

Two-piece, including EPDM  
With approval for various module  
manufacturers, including First Solar

There is also an M8x35 screw  
+ Lock washer required

# Screw accessories

We generally supply all stainless fasteners in strength classes from A1 to A5. Below we show just a selection of the items that are used for our solar mounting systems. Please feel free to tell us about your requirements for items that are not included in this catalog.

## Washer head screw

**Article no.**  
**301.9810-0-xxx**

**Dimensions** e.g. 6 x 80, 6 x 100,  
8x80, 8x100, 8x120

TX drive, hardened stainless steel,  
approved by building authorities, including  
for attaching roof hooks.

## Wood construction screw

**Article no.**  
**301.9135.xxx**

**Dimensions** e.g. 6 x  
50, 6 x 100, ...

Stainless steel A2 according to DIN 9135  
TX drive, countersunk  
head, partial thread with ETA approval.

## allen screw

**Article no.**  
**301.912-2-xxx**

**Dimensions** e.g. 8 x 16, 8 x  
20, 8 x 25, 8 x 30, 8 x 35, ...

Cylindrical screw with hexagon socket A2  
stainless steel according to DIN 912

Among other things, for fastening the  
module clamps in the slot nut.

## hex screw

**Article no.**  
**301.933.xxx**

**Dimensions** e.g. 10 x  
25, 10 x 30, 10 x 40, ...

hex screw with thread up to head stainless  
steel A2 according to DIN 933

Among other things, for attaching the  
mounting rails to the roof hook.

## Hammer head screw

**Article no.**  
**301.9664-2-10x25**

**Dimensions** 10 x 32.5

Stainless steel A2

Among other things, for more convenient  
attachment of the mounting rails to the roof hook.

## Hammer head screw

**Article no.**  
**301.9415.xxx**

**Dimensions** e.g. 8 x 20, 8 x  
25, 8 x 30, 8 x  
35, ... 10 x 20, 10  
x 25, 10 x 30, 10 x 40

Stainless steel A2

For mounting rails type 28/15

P4

PROFIMAL

## ■ washer

**Article no.**  
301.9021.xxx

**Dimensions** e.g. for M8, for  
M10, for M12, ...

With large outside diameter  
DIN 9021 stainless steel A2

## ■ washer

**Article no.**  
301.125.xxx

**Dimensions** e.g. for M8, for  
M10, for M12, ...

Stainless steel A2 according to DIN 125

## ■ lock washer

**Article no.**  
301.9250.xxx

**Dimensions** e.g. for M8, for  
M10, for M12, ...

Schnorr disc stainless steel A2  
For use, among other things, in the  
module clamps, slot nut.

## ■ hex head self-drilling screw

**Article no.**  
301.7504-2-5.5x25K

**Dimensions** 5.5 x 25mm

Stainless steel A2 according to DIN  
7504 with collar and 6-point head.  
Among other things, for securing profile  
connectors in the mounting rails.

## ■ Facade construction screw

**Article no.**  
301.9191-2-6.3x25

**Dimensions** 6.3 x 25mm

Bimetal (A2 / hardened steel)  
Specially coated, with captive sealing washer,  
reduced drill point, SW8 with building approval  
for, among other things, fastening aluminum  
profiles to trapezoidal sheets.

## ■ Thin sheet metal screw

**Article no.**  
301.9191-2-...

**Dimensions** e.g. 4 .5 x  
25, 6.0 x 25, ...

Bimetal (A2 / Nickel Strike, galvanized, blue  
passivated) specially coated, with captive  
sealing washer, anti-friction coated, SW8 with  
building approval  
For example, for attaching aluminum profiles to  
trapezoidal sheets.

## ■ Truss head screw

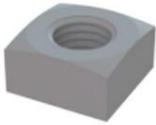

**Article no.**  
301.603.xxx

**Dimensions** e.g. 10 x 20, 10 x 25,  
10 x 30, etc.

Stainless steel A2 according to DIN 603  
with 4-point attachment.

## ■ square nut

**Article**  
no. 301.557.xxx

**Dimensions** e.g. for M 8, for  
M10, for M12 \_\_\_\_\_

Stainless steel A2 according to DIN 557

## ■ hex nut

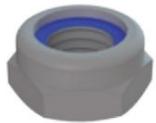

**Article**  
no. 301.934.xxx

**Dimensions** e.g. for M8, for  
M10, for M12 \_\_\_\_\_

Stainless steel A2 according to DIN 934

## ■ stop nut

**Article**  
no. 301.985.xxx

**Dimensions** e.g. for M8, for  
M10, for M12, ... \_\_\_\_\_

Stainless steel A2 according to DIN 985

## ■ flange nut

**Article**  
no. 301.9345.xxx

**Dimensions** e.g. for M8, for  
M10, for M12, ... \_\_\_\_\_

6-carat nut similar DIN 6923 with flange and locking teeth. Stainless steel A2.

## ■ Drilling screw 4.8 x 19 mm

**Article**  
no. 301.7504-2-4.8x19

**Dimensions** 4.8 x 19mm \_\_\_\_\_

A2, AW 25, lens head shape M  
For connecting the connector on the PR  
Flex

## ■ slot nut

**Article no.**  
301.001.1-E

**Dimensions** For M8 \_\_\_\_\_

Aluminum, with ball and spring made  
of stainless steel. Can be swiveled into the  
upper M8 tracks of the mounting rails.

## ■ Drilling screw 5.5 x 38 mm

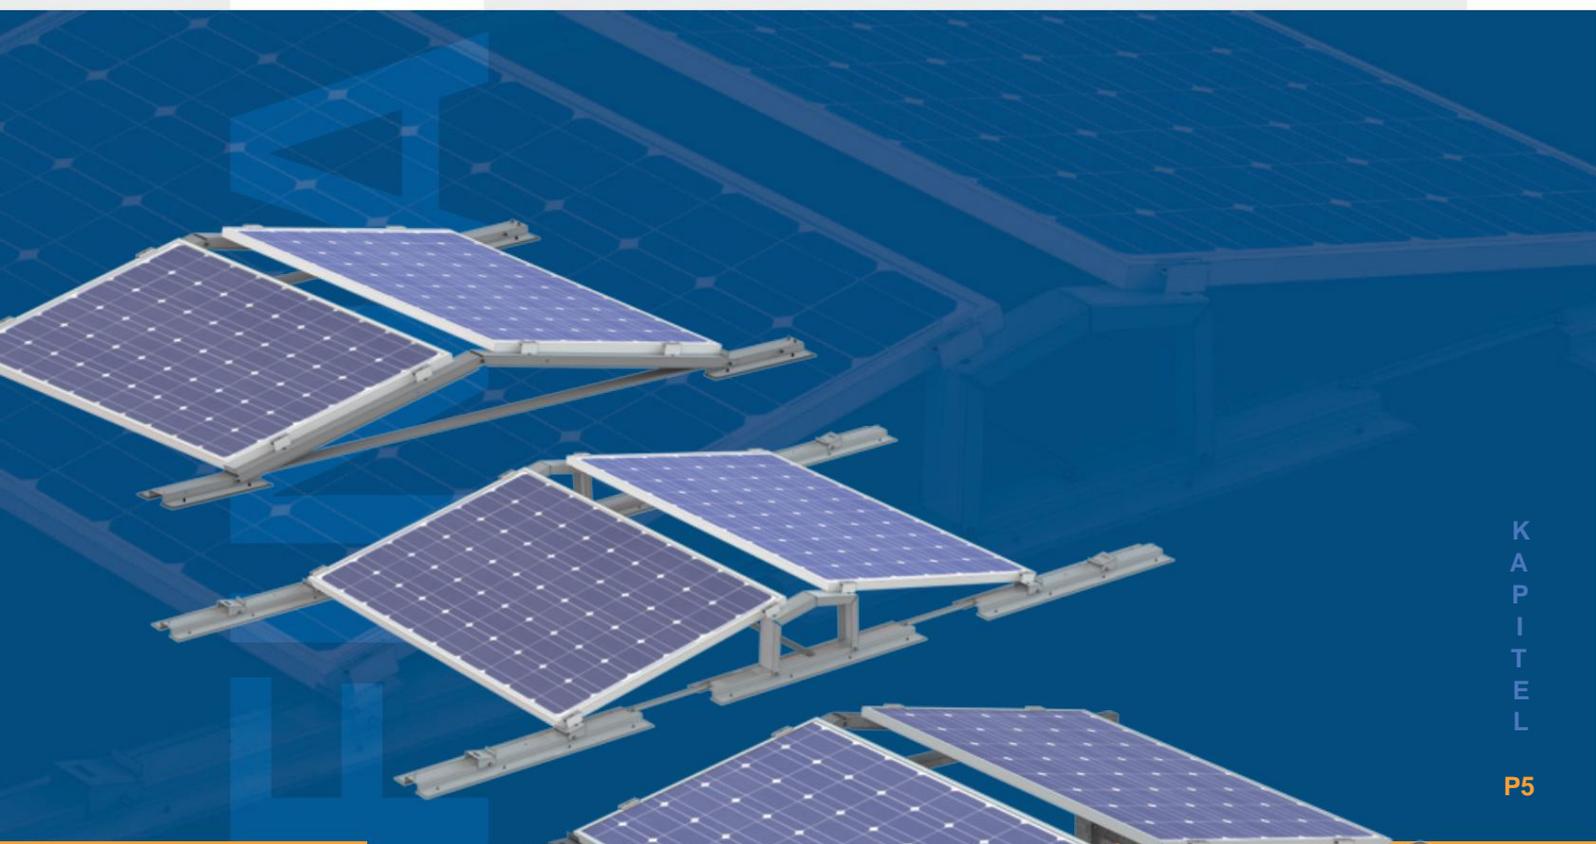

**Article no.**  
301.91912-2-5.5x38

**Dimensions** 5.5 x 38mm \_\_\_\_\_

Bimetal (A2 / hardened steel)  
Specially coated, with captive sealing washer, reduced  
drill point, SW8 with building approval  
For example, for attaching aluminum profiles to  
trapezoidal sheets.

## duplex systems

PRO  
FR

## duplex roof

The east/west solution for flat roofs and roof pitches up to 15°

### Article no. duplex roof

**Dimensions** individual  
Project designs

Frame system made of sheet steel with a zinc protective layer. Almost ballasting-free assembly system for flat roofs, module orientation to east/west. Developed in the wind tunnel and aerodynamically optimized, suitable for roofs with low surface load reserves.

Further information about the flat roof systems can be found in the respective data sheets. Please send us your project inquiries for individual designs and offers.

## duplex roof base

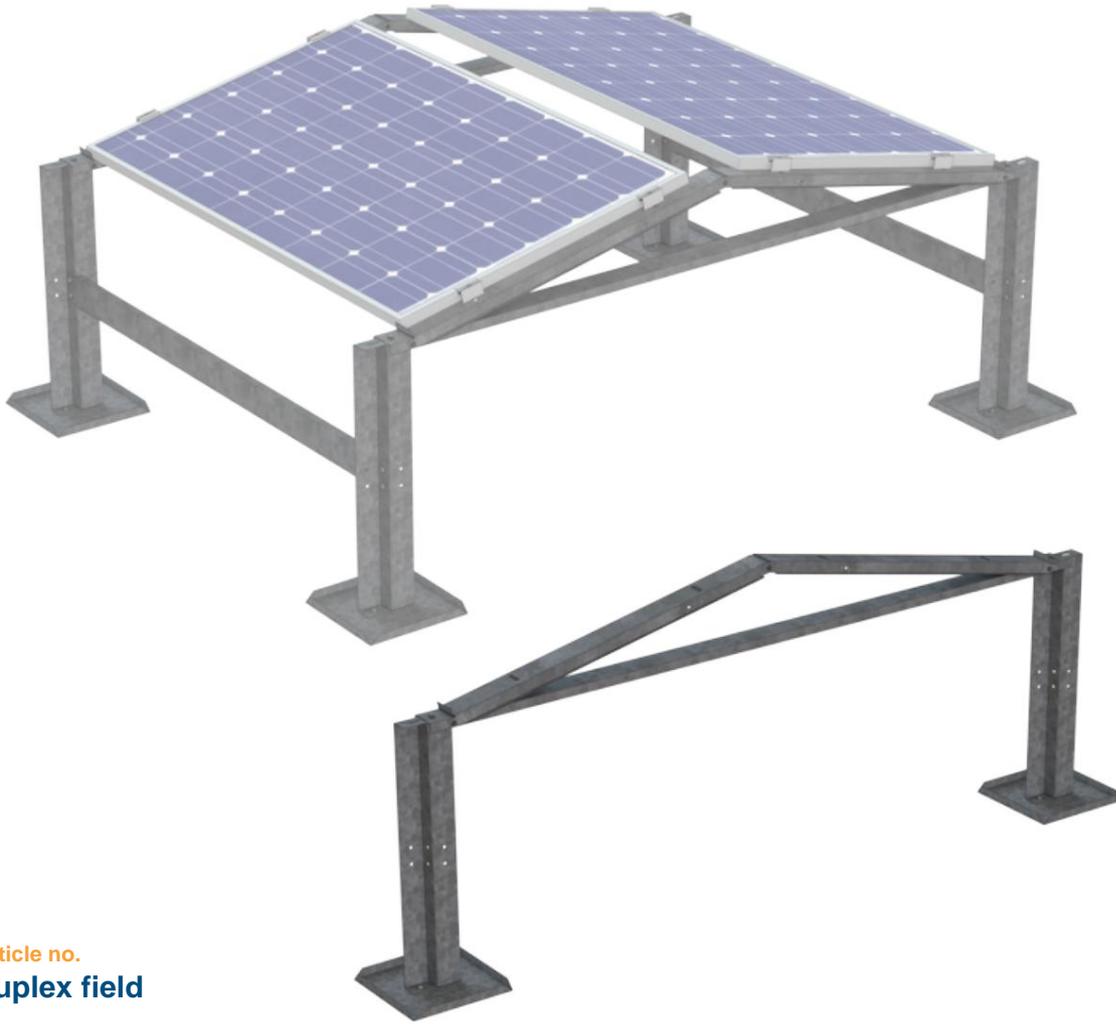

### Article no. duplex roof base

**Dimensions** individual  
Project designs

Frame system made of sheet steel with a zinc protective layer. Almost ballasting-free assembly system for flat roofs, module orientation to east/west. Developed and aerodynamically optimized in the wind tunnel. Special solution for minimized surface pressure.

Further information about the flat roof systems can be found in the respective data sheets. Please send us your project inquiries for individual designs and offers.

Article no.  
**duplex field**

Dimensions individual  
Project designs

Frame system made of sheet steel with a zinc protective layer.  
Special solution for terrain that does not allow ramming  
– e.g. landfills, parking lots, sealed conversion areas or  
stone deserts.

Up to 150% more modules on the same area, as no shading  
distance is necessary.

Further information about the outdoor  
systems can be found in the  
respective data sheets. Please send us  
your project inquiries for individual designs  
and offers.
